THE ANTI-TRUST BOERS.

The struggle between the Boers and the English in South Africa is really one between Anti-Trusts and Trusts.

Under Boer law the natural increment of the soil belongs to the Government, not to individuals. Any one willing to pay a Government tax may dig for gold or diamonds and enrich himself. But this does not suit the men like Ceril Rhodes, who desire to create monopolies. They want the Boers out of the way so that they can introduce the unjust English system of land kolding, and can soon put the whole district which bears diamonds and gold into the control of a Trust.

The album, which may reach a cost of \$10,000, shall contain several hundrod pages of velium, on which the poetical dedications of the ablest German-American authors can be engrossed.

The designs for the album cover are to be executed in silver repousse work.

The project if carried out, will embrace a rare opportunity for American art and literary genius to display itself on an exquisitely chaste souvenir.

The souvenir is to be dedicated by German-American ladies to the Empress of Germany.
